## Architecture Week

16<sup>th</sup> to 25<sup>th</sup> June 2006

*ImagineNewmarket*, in partnership with the Newmarket community, local schools, The John's Practice and The Little Angels Day Nursery are co-ordinating an event for Architecture Week 2006.

We aim to involve children and young people in a workshop to explore the use of design, space and building ideas.

## Tenth Anniversary Activities

ImaginationNewmarket is a community organisation dedicated to building an Imagination Centre in Newmarket.

Our Architecture Week activities will include...

### A community ideas forum...

10 people we should have  
in our building when it opens?

10 materials we could build our centre  
with and why?

### A one day workshop...

Enabling children and young people to imagine a new building, create their own concepts and contribute them to our 'ideas wall'.

The best ideas will be judged by our Vision Team and the winners will have free entry to our new Centre for a year.

See our website for more details.
